SPOFFORD FIRE DEPARTMENT
DECEMBER 31, 2000

DEDICATION

The 2000 Annual Town Report is dedicated to Frank Dean, who retired in 2000 after thirty years of service with the Highway Department and nearly forty years with the Chesterfield Fire Department. His hard work and dedication in the Fire Department, Highway Department and the Town of Chesterfield for so many years made this year's dedication an easy choice.

Frank joined the Highway Department in 1970. During his years at the highway department, Frank did a little of everything. He has plowed roads, helped build roads, and was responsible for most of the road signs in Chesterfield. If something needed doing at the Highway Department during the past 30 years, Frank has probably played a part in getting it done.

We would like to thank Frank for the many years of dedicated service to the Town and hope he enjoys his retirement.

SELECTBOARD REPORT - 2000

People driving through Chesterfield on Routes 9 and 63 still see a town that is mostly rural and agricultural, with forests, fields, beaver swamps and scattered houses. We have some commercial areas, which provide a valuable tax base and occupations for town residents, but certainly haven't changed the fundamental aspect of the town.

However, we all know nothing is permanent. This year we have confronted change in many ways, and much of our efforts in town government have been focused on trying to protect the Chesterfield atmosphere while encouraging diverse occupations and a good tax base. The Planning and Zoning Boards, with the cooperation of many contractors and others who work at home, help make a smooth transition to our new Home Occupations ordinance. Many new types of home businesses are allowed in residential areas, but need to follow a permitting process.

The purchase of the Welcome Farm last year was a wakeup call. The loss of this prime farmland is just one more indication of how hard it is to keep agriculture alive in New Hampshire - and how much we miss it. The Planning Board has worked hard on making sure the proposed 20-lot development is as environmentally friendly as possible. The Route 9 committee was formed to develop new techniques to allow some kinds of carefully controlled commercial development where it would fit in well with neighborhoods.

The Planning Board is also working on a new ordinance for communications towers. The Federal Communications law requires us to allow the towers, and the Planning Board had just started work on guidelines for their construction when we got our first application, with information that another four or five might follow! The ordinance is an attempt to make sure that towers go where they are most effective, that they are shared and clustered when possible, no higher than necessary, and that they will be removed if new technology replaces them.

All the federal, state and local regulations can make it pretty frustrating to get any kind of development done, but rules are needed to help neighbors get along with each other. The State of New Hampshire depends on the Conservation Commission to monitor permits and report violations of state environmental regulations, finding funding and assistance for people who want to lower their taxes and protect land with easements or other conservation techniques. (They have also had some success this year in land protection). Other town officials monitoring a building project are the code enforcement officers for fire, building and health. They have issued 105 building permits this past year. Of course all our other service departments - highway, transfer station, police, parks and recreation and library, are busier and serve more people as development grows. (The Highway Department misses the services and wisdom of Frank Dean, who retired this year after 30 years of working for the town)

Perhaps the biggest change to the structure of town government is the vote that allowed the creation of a new fire precinct, which may assume the duties the Chesterfield Fire Department. Chesterfield voters will be asked to transfer the equipment and buildings from the Town of Chesterfield to the new precinct. This shift will remove the budget vote from the Annual Town Meeting to a separate meeting each year for the fire precinct. Both the Chesterfield and Spofford Fire Departments are entirely staffed by volunteers, which are harder and harder to find as Chesterfield becomes more of a bedroom community and people are more likely to work outside of town. Due to this shrinking pool of volunteers, members of both the Chesterfield and Spofford Fire Departments and others realize that in the future it may be necessary to hire some full time staff to assure that there is adequate fire protection.

As usual, your selectboard, town administrator and office staff try to direct the operation of the town as prudently and efficiently as possible, coordinating all the volunteers (we've even started a new volunteer committee to help get better cable service), and services to meet your needs. Perhaps our biggest challenge is maintaining true communication with Chesterfield residents. Informed citizens are essential for a democracy, and we depend on your comments and suggestions. Our new website - www.nhchesterfield.com, designed by Town Administrator Rick Carrier, allows you to check on town activities, read agendas and minutes, and send return comments. Please let us hear from you.

CHESTERFIELD, NEW HAMPSHIRE

TOWN MEETING 2000

Proceedings of the Annual Town Meeting of the voters of the Town of Chesterfield, New Hampshire, called at the Chesterfield School in said town on Tuesday, March 14, 2000.

Assistant Moderator Warren Allen called the Town Meeting to order at 10 o'clock in the forenoon at the Town Hall and declared the polls open for voting by ballot for Town Officials and amendments to the Zoning Ordinances.

Polls were closed at 6:00 pm at the Town Hall and voting resumed at 6:30 pm at the Chesterfield School. Moderator Michael Bentley called the meeting to order with Warren Allen and Patricia Porter as assistant moderator and clerk, respectively.

Lester Fairbanks led the meeting in the salute to the flag.

Timothy Butterworth spoke regarding the power outage immediately proceeding the meeting and thanked those involved with setting up the generator so the meeting could be held as scheduled. The power did come back on before the start of the meeting.

Mr. Butterworth also mentioned the dedication of the Town Report to Ronald T. "Bud" Guyette.

Two State Representatives, McKim Mitchell and Edwin "Smokey" Smith were introduced to the body and asked to say a few words.

A voice vote was in the affirmative on a motion made by Bob Johnson and seconded by Tim Butterworth to dispense with the reading of the Warrant.

ARTICLE 3. The report of the Budget Committee was presented by Chairman Robert Borofsky.

ARTICLE 4. A voice vote was in the affirmative on a motion made by Tim Butterworth and seconded by Bob Johnson to vote to raise and appropriate the sum of One Million Six Hundred Ninety Six Thousand Three Hundred Sixty Dollars (\$1,696,360) for the following purposes, or act in any way related thereto.

**Chesterfield, New Hampshire
Special Meeting**

A special meeting was called on September 26, 2000 at 7:30 p.m. at the Chesterfield Town Hall in response to a petition to form a Fire Precinct pursuant to RSA 52:1 – I(a).

Selectboard chairman Tim Butterworth moderated and called the meeting to order at 7:30 p.m. He welcomed those in attendance. Discussion followed regarding the effect of becoming a precinct, the low voter turnout, and the process of holding future precinct meetings.

A motion passed to vote by paper ballot on Article 1.

ARTICLE 1. The ballot vote was in the affirmative, 10 YES and 6 NO, on a motion made by Gary Winn and seconded by Richard Cooper to establish a village district for the purpose of the extinguishment of fires pursuant to RSA 52:1 – I(a), commencing January 1, 2002. Said village district to be inclusive of all areas within the Town currently taxed for the operations of the Chesterfield Fire Department and exclusive of those areas currently taxed for the Spofford Fire District.

ARTICLE 2. A voice vote was in the affirmative on a motion made by Steve Laskowski and seconded by Robert Johnson to name the district formed by Article 1 "The Chesterfield Fire Precinct."

ARTICLE 3. A voice vote was in the affirmative on a motion made by Gary Winn and seconded by Robert Johnson to elect the fire wards, Richard Cooper, Timothy Hanley, and Stephen Laskowski, as district commissioners until the first annual meeting of the district in 2002. No other officers were chosen at this time.

ARTICLE 4. A motion was made by Steve Laskowski and seconded by Gary Winn to authorize the Commissioners to appoint all other necessary officers.

A voice vote was in the affirmative on a motion made by Bob Del Sesto and seconded by Robert Johnson to amend Article 4 to read "until the 2002 Chesterfield Fire Precinct meeting."

A voice vote was in the affirmative to accept Article 4 as amended.

Tim Butterworth declared the meeting adjourned at 8:40 p.m.

Respectfully submitted,

Rick Carrier

AUDITORS SUMMARY REPORT
Town of Chesterfield, N.H. 03443

re: 2000 Audit of the 1999 Records
by: Kenneth Woodward

Town Treasurer: Weekly manifests for payments were signed by the required Selectmen. Accounts were reconciled and tied into Bank checkbook statements. Record keeping was found good. Deposits reported from other municipal officers agreed with the Treasurer's reports.

Tax Collector: Records for the year were good. Beginning tax invoices did not agree with the same records for the second billing. The difference was explained by a list of adjustments. Tax abatements were reconciled by account. MS 61 report was reconciled and differences were accounted for.

Library Treasurer: has computerized the financial records. Checks are written manually for both payroll and disbursements for the vendors. Adjustments were made for payroll taxes and corrected on the the forms for federal taxes. Good record keeping found.

Spofford Fire Precinct Treasurer: These records were found well done and in good order. All invoices were batched up by the month and made auditing move quickly forward. Copies of meeting minutes complete with appropriations were in order.

Selectmen: All audit questions with key points were followed by the Board.

Appropriations were complied with with regard to expenditures.

MS-60 Auditors Report has been complied with and reported to New Hampshire Department of Municipal Services.

OFFICE OF SELECTMEN
TOWN OF CHESTERFIELD
CHESTERFIELD, NH 03443

RE: AUDIT OF 1999 RECORDS
PERFORMED IN JAN. & FEB. 2000

TOWN CLERK: THE RECEIPTS OF THE TOWN CLERK WERE EXAMINED FOR THE CALENDAR YEAR. ALL MONIES COLLECTED WERE SUBMITTED TO THE TREASURER ON A TIMELY BASIS. VARIOUS TESTS WERE PERFORMED TO VERIFY THE ACCURACY OF THE FEES COLLECTED. STATISTICAL SAMPLING REVEALED AN ERROR PROBABILITY OF .0786%. FURTHER TESTING SHOWED THAT THE ERRORS OCCURRING WERE DETECTED BY THE TOWN CLERK AND STEPS WERE TAKEN BY HER TO CORRECT THEM. THE TOWN CLERK WAS ADVISED OF THE ERROR WHICH REMAINED UNNOTICED BY HER.

THE STATISTICAL DATA RELATING TO THE NUMBER OF THE VARIOUS LICENSES AND PERMITS ISSUED WERE ALSO VERIFIED AND FOUND TO BE CORRECT AS STATED.

IT IS RECOMMENDED THAT THE TOWN CLERK'S RECORDS BE COMPUTERIZED AS SOON AS POSSIBLE. THE CORRECT SOFTWARE WOULD GREATLY DIMINISH THE PROBABILITY OF COMPUTATION ERRORS AND ALSO DECREASE THE TIME REQUIRED TO ACCOUNT FOR ALL PERMITS RECEIVED FROM THE DEPARTMENT OF SAFETY WHICH ARE PRE-NUMBERED. ALL PERMITS, USED AND UNUSED, MUST BE ACCOUNTED FOR.

BOAT PERMITS: FEES COLLECTED DECREASED DRAMATICALLY FROM THE PRIOR YEAR. THIS IS PRESUMABLY DUE TO THE VISIBILITY OF THE NEW AGENT. ALL MONIES COLLECTED WERE SUBMITTED TO THE TREASURER AS REQUIRED BY STATUTE. NO ERRORS IN COMPUTATIONS WERE DETECTED.

CEMETERY TREASURER: FUNDS RECEIVED BY THE CEMETERY TREASURER WERE RECONCILED AND SUBMITTED TO THE TRUSTEES OF TRUST FUNDS. ALONG WITH THE BALANCE ON LAND AT PRIOR YEAR-END. AMOUNTS WERE TRACED TO THE TRUSTEE OF TRUST FUNDS ACCOUNTS.

TRUSTEES OF TRUST FUNDS: THE REPORTS OF THE TRUSTEES WERE FOUND TO BE CORRECT AS STATED. CAPITAL RESERVE FUNDS CREATED OR ADDITIONS PROVIDED FOR BY VOTE OF THE TOWN ARE IN THE CUSTODY OF THE TRUSTEES AND PROPERLY INVESTED IN ACCORDANCE WITH RSA 31:25. ALL DISBURSEMENTS WERE PROPERLY VOUCHERED AND INDIVIDUAL RECORDS OF TRUST FUNDS ARE MAINTAINED.

AN INVESTMENT POLICY FOR TRUSTEES OF TRUST FUNDS WAS ADOPTED AND APPROVED BY THE BOARD OF SELECTMEN DURING 1999.

PARKS AND RECREATION: EXPENSES OF THE DEPARTMENT ARE PROPERLY VOUCHERED AND RECORDED. INCOME RECEIVED BY THE TOWN TREASURER IS DEEMED TO BE CORRECT AS NO ORIGINAL SOURCE DOCUMENTATION WAS MADE AVAILABLE TO THE AUDITOR.

2000 HIGHWAY REPORT

The Highway Dept. has survived another year due to the teamwork of the crew.

We replace a 1988 international dump truck this year with a brand new Mack. Purchase price was well below budget allotment. This Mack is equipped with an eleven-foot nose plow, a nine-foot wing and a side dump sander body made by Tenco Co. This Truck is going to be around for a long time!

Construction / Reconstruction projects done were - Drainage on Streeter Hill Rd. and continuing ledge cuts and ditch work on Old Swanzy Rd. Gulf Rd. project was not done due to wet weather and manpower shortage. Materials have all been purchase for installation in 2001 season.

Guardrail installation continued on River Rd. and resurfacing was completed on schedule.

We would like to take this opportunity to say "Thank You for a job very well done" to Frank Dean who served the Town faithfully for 28 years! Frank retired this year to enjoy his family. He is missed, and thought of often. Hats off to you Frank!

Respectfully

Bart Bevis
Road Agent

2000 SOLID WASTE ANNUAL REPORT

Residents of Chesterfield disposed of 757.10 tons of solid waste, which includes trash and building debris.

The following is a breakdown of tonnages recycled:

Co-mingled Containers:	<u>135.43</u>
Mixed Paper:	<u>178.60</u>
Corrugated Cardboard:	<u>46.93</u>
Aluminum Cans:	<u>.89</u>
Books:	<u>2.34</u>
Chipboard:	<u>1.12</u>
Scrap Metal:	<u>115.95</u>
Scrap Aluminum:	<u>.88</u>
Textiles:	<u>1.03</u>

TOTAL TONS: 483.17

Based on disposal cost of \$66.00 per ton and trucking fee of \$125.00 per pull (10 ton average), we have saved an estimated \$37,000.00 by recycling!

Total revenue received was \$18,767.55.

Chesterfield had the second highest turnout at the Hazardous Waste collection days held in Keene. (Out of 15 towns!)

Estimated 663 gallons of used oil was collected.

Respectfully submitted,

Joanne Howard

CHESTERFIELD CONSERVATION COMMISSION, 2000 ANNUAL REPORT

The conservation commission has two broad responsibilities. The first of these is to evaluate and make recommendations to the State of New Hampshire Department of Environmental Services (DES) on permits to do work in or near wetlands, to monitor this work, and to file complaints or assist citizens in filing complaints related to wetlands violations ("wetlands" also includes Spofford Lake, the Connecticut River, and Chesterfield's streams and brooks.). In the year 2000 we evaluated 9 permit applications of various kinds related to wetlands work, we filed or responded to 6 complaints, two of stream contamination, two of septic problems related to Spofford Lake, and two related to destructive logging practices. We also followed up on 21 permit applications from 1999. All and all, a busy year. We greatly appreciate the fact that the large majority of our citizens want to "do the right thing" regarding Spofford Lake; our rivers, brooks, and streams; and our wetlands. Unless it is an egregious violation or crisis situation we always try to resolve the complaint informally by contacting the landowner before any complaints are filed.

The second major responsibility of the conservation commission is a general charge to protect the integrity of the town's environment. One way we do this is through proposals to town meeting regarding land and water protection. An example of this in the year 2000 was the town meeting vote to expand the Shoreland Protection Act to Chesterfield's section of the Connecticut River. The town also voted at 2000 Town Meeting to add \$20,000 to the already established Conservation Fund, and to direct 100% of the land use change penalty to this fund. We also are working to preserve land in the more remote sections of town, areas where the wetlands, and the diverse flora and fauna represent both a town treasure and an important contribution to the integrity of the regional ecosystem.

A special thank you goes to Frances Wright of Accokeek, Maryland, who permanently protected 30 acres of her land on Plain Rd. with a conservation easement. This land is an important addition to the Wantastiquet-Monadnock Greenway, a project on which the CCC is an active partner. Our fall event this year was the opening of the Daniels Mountain Trail, the lower section of which crosses Mrs. Wright's land. This trail is the latest link in the evolving Wantastiquet-Monadnock Trail.

We would like to remind the townspeople that up-to-date information on the activities of the Chesterfield Conservation Commission can be found at www.Chesterfieldoutdoors.com.

**CHESTERFIELD POLICE DEPARTMENT
CHESTERFIELD, NEW HAMPSHIRE**

ANNUAL REPORT FOR 2000

The year 2000 has been a year of changes for the Chesterfield Police Department. We bid farewell to Officer Stacy McIntire after she accepted a full time position in New York involving her life long passion for figure skating. She had hoped to stay on the department in a limited capacity as the DARE instructor and some periodic duty assignments – dedicated to the very end. But after looking closely at her schedule, she felt that she simply could not fulfill both obligations adequately, so she reluctantly submitted her resignation. As a department we will miss her day to day participation but we truly wish her the very best in her career and thank her for her dedicated service to the town of Chesterfield over the past 4 years.

Even knowing that Stacy's shoes would be tough to fill, we did not have to look beyond the town borders to find another patrol officer. Peter Petschik, an auxiliary NH State Trooper for many years and former constable for Spofford, stepped up to the task. As the Emergency Management Director for the town and an active Fire Fighter and Emergency Medical Technician, he brings with him a very broad range of community service experience. We were fortunate to find someone of this calibre and we welcome him to the department. And as for Stacy's replacement as DARE Officer, we didn't have to look far either. In keeping with the long tradition of excellence that this program has had, Officer Kevin White was selected as her replacement and his name will be submitted to attend the instructor certification course this year. Kevin has an excellent rapport with children and we feel he will be a tremendous resource for the children at Chesterfield School.

There was also a change in rank structure within the department, just as there have been in most police departments in the area. The police department currently has 5 full time officers, 2 part time officers, a part time Prosecutor, an Animal Control Officer, and a Secretary. For years, the department has had only two supervisors to administrate the department – the Chief and a Sergeant. With all the administrative duties that have built up over the recent past, we simply reached our saturation point. So in order to adequately address this issue, Lester Fairbanks, whose dedication and hard work have kept the number of supervisors necessary to a minimum for so long, was promoted from the rank of Sergeant to the rank of Lieutenant. Jason Graves, an experienced investigator and patrol officer, was then promoted from Patrolman to Sergeant as our third supervisor. By adding this position we will be much more efficient in our management and supervisory responsibilities by spreading these duties between 3 people, rather than cramming them between 2 people.

During this past year, the Town authorized us to become part of a regionalized effort between Chesterfield, Swanzey, Walpole, and Troy to share the cost of hiring an attorney to prosecute our criminal cases in the Keene District Court. Previously, Lt. Fairbanks handled this task but the case load and it's inherent technicalities were becoming a detriment to his other duties. Not to mention the fact that he is only a police officer - not an attorney. We did not actually fill the position until October of 2000 but even in just over 4 months we have noticed a tremendous reduction in Lt. Fairbanks workload. He is now able to focus on his administrative duties and he is now able to take on some of the major investigations that were being handled by the patrol officers. This returns the officers to the street where they can fulfill their day to day patrol duties that were falling behind due to their involvement in these kinds cases. Lt. Fairbanks is also now able to assist the part-time officers with their criminal investigations which helps me to keep the part-time officer costs to a minimum. Thus far the project appears to be a big success we are heading towards the goals that were initially set. I will report in more detail on this in 2001. By joining forces with other municipalities in matters of this kind we are able to address issues of concern at a greatly reduced cost. Thank you for supporting us in this venture.

When you drive on Rte. 63, you will note a physical change to the police department building itself. The building is now white and the front side looks much more appealing. The reason for this change was due to the efforts of Damon Harvey of Spofford. Damon is a member of the Boy Scouts of America and in early 2000 he was looking for a community service project that he could use to obtain his Eagle Scout rating. He proposed scraping the entire building and repainting it. And for the front, he proposed removing the existing clapboards that were damaged by weather, perform any other carpentry that was necessary, and then replace them. I immediately accepted his offer and the project was started in the fall. After removal of the clapboards, it was decided to install some additional insulation and then some vinyl siding to the front of the building in an attempt to keep the building more energy efficient. Needless to say, Damon's services proved to be just what was needed on the building and I would like to publicly acknowledge his efforts. Well done, Damon!

You will see that I have expanded the listing of our statistics for 2000. Some residents have approached me and asked about the number and type of specific calls for service that we handle. Because our records management system is not capable of sorting this information in an easy-to-understand manner for this report, I have broken them down manually for 1999 and 2000 only. Due to this more detailed accounting however, I do not have any other comparisons from any previous years. There are some statistics that have been tracked manually for years and those are listed below. In that vein, you will notice that the motor vehicle summonses and criminal cases have dropped off this past year. Due to the rising cost of gasoline, I had to become quite "creative" with my operating budget in 2000 and some cut backs in patrol had to be made, which resulted in these reductions. You will also notice that the number of injuries from motor vehicle accidents has risen. That "creativity" will need to continue in 2001 but I am committed to reducing these injuries as much as possible with the limited resources that I will have available. Strict enforcement of the motor vehicle and criminal laws has proven that it prevents injuries and for a tranquil community.

With the above in mind, I would like to remind residents that beginning this year there are scheduled to be some significant construction projects that could cause traffic delays and an increased level of frustration for drivers. The new bridge for Rte. 9 over the Connecticut River is scheduled to begin as well as the construction for the bypass system in Keene. We will be surrounded by construction on the east and west sides of town. I would like to ask everyone's cooperation, patience, and courtesy while driving on Rte. 9. Extra caution should be extended to motorists that are merging with traffic from any of our side streets that intersect with Rte. 9. Most Chesterfield residents understand the inherent traffic dangers on Rte. 9 and they are very responsible drivers. But with all the commuter traffic, vacation traffic, and other transient travelers on the roads - during the summer months especially - we are bound to have some very frustrated "visitors", to say the least. These visitors have other plans and the last thing they want to do is sit in traffic while waiting for construction crews. When that "frustration factor" increases, it can temporarily change a normally "cool, calm, and courteous" driver to a "dangerous, irritated, and irrational" driver. Please be mindful of this and be willing to "give a little" when they appear. We will be out as much as possible trying to keep the traffic running "civilly" but we can't be there every time something like this happens. Any help that you can give us in this area will be greatly appreciated.

As always, I would like to thank the townspeople for their support over the past year. I have an open door policy with the citizenry and encourage anyone with issues regarding the police - good or bad - to contact me anytime. And of course, I would like to especially thank the officers of the Police Department, all of the boards, committees, departments, and the employees within the town structure for their efforts as well. We have a very unique group of individuals in Chesterfield and I am very proud to be part of this team. And that is just what we have here - a true "Team", committed and dedicated to service.

Respectfully submitted,

Earl D. Nelson
Chief of Police

HEALTH OFFICER REPORT 2000

The past year has been very busy; as the town continues to grow so do the issues that need to be attended to. Much of this has to do with researching and writing reports, obviously a time consuming endeavor.

I have attended several conferences in Concord in an attempt to stay current on new health concerns that affect all of us. These conferences not only allow me to learn the program being offered; but allow me to meet and discuss problematic areas that possibly another town has already dealt with and resolved.

- One of the issues that seems to be coming up quite frequently is that of septic questions and concerns.
- The State of New Hampshire states that the following are violations:
 - Constructing new homes or septic systems without prior approval of the septic system design.
 - Constructing new septic systems for older homes done as "replacement" without prior approval of the septic system design
 - Construction by unpermitted installers

Since January 1, 1989, other violations include the following:

- Occupying a seasonal structure full-time (full-time occupancy is defined by Env-Ws 1002.17.) (There is no such thing as "Grandfather" clause for any seasonal structure)
- Expanding or renovating a structure so that it increases the loading on the septic system without first obtaining approval from DES (Department of Environmental Services)

PRIVATE WELL USERS!

From DES as of December 2000 Office of Bernard Lucey, Senior Engineer, Water Supply Engineering Bureau in Concord NH

Have you had your well tested recently?

Drinking water from private wells in New Hampshire sometimes contains contaminants at levels that can pose health risks. Only a water quality test, by a competent laboratory, can assure that your family is protected.

What type of contaminants might be present in your well?

The following contaminants, some naturally occurring and others man-made, have been found in private well water in New Hampshire:

Arsenic
Bacteria
Fluoride
Nitrate
Radium
Radon
Sodium
Uranium
Volatile Organic Chemicals (VOCs)

Where can I learn more about this?

For further information, please visit the NH DES web site at www.des.state.nh.us/wseb; select "fact sheets" then 2-1.

Chesterfield Parks & Recreation 2000 Summary

2000 for The Parks & Recreation Commission was a stable year. The summer recreation program at Ware's Grove is staffed by dedicated young people that average at least 2 years experience in their positions at our beaches, as are our lifeguards there and at the North Shore Beach. We have plans to improve the summer recreation program by offering hours that are more consistent with other programs.

Swimming lessons, offered at the North Shore Beach with the Red Cross running the program, highly successful, eliminating confusion between the swim program and the summer recreation program, allowing Park & Rec. to focus on other operations.

An adult indoor walking group is offered by our working director, utilizing the school building.

From a budget viewpoint Park & Rec. Revenues were lower then last years. A look at the daily weather records shows a cool, rainy summer. Hot, sunny weather generates revenue from admissions, concessions and the Summer Recreation Program. Fortunately, staffing personnel, which is the highest cost, is flexible. For example on a daily basis, the number of lifeguards on duty is adjusted. More lifeguards are needed on hot days when revenue is generated. On a cold day, few , if any people are in the water, 1 lifeguard, or the working director is sufficient. A good system of record keeping, the flexible staffing implemented during the last 2 years by our working director, the services of our bookkeeper, and the ability of the town auditor to immediately access records has enabled us to have tight control of all items.

A new floor was installed at the Ware's Grove cottage, and earlier than was planned, part of the roof needed replacing. Buildings always need maintenance. A Capital Reserve Fund for building maintenance was established last year and part of this fund should be used this year for additional needed repairs. A capital reserve fund for tennis courts exists and the Commission has a member working on a comprehensive plan.

At this time, An organization in the community is formulating a plan for needed maintenance on the North Shore Beach building. They indicate they will donate their time to do the work. We try to maintain and improve all programs, facilities and activities for the people of Chesterfield.

**Chesterfield Cemetery Commission
2000 Report**

Despite the wettest growing season in recent memory, our new sexton, Patricia Struthers, and her crew, led by Merrill Yeaw, kept our cemeteries in good shape.

We purchased a used pickup truck from NH Fish and Game to replace the 1-ton given to us by the Public Works Department. Also purchased was a second riding mower to ease the job of caring for our three largest cemeteries.

An antique coffin-lowering device, found when cleaning out the Chesterfield West toolshed, was donated to the Chesterfield Historical Society. Also found and donated were 2 scythes - the original mowing and weed-wacking device.

We are working on updating our maps and laying out the newest section of Friedsam Cemetery.

Our thanks go to Pat's husband, Clifford Struthers, the sexton in Winchester, for his support and assistance in several projects.

CODE ENFORCEMENT ANNUAL REPORT

In the year 2000 the Building Inspector's Office became the Code Enforcement Office reflecting the duties that are being carried out. Enforcement duties include Building, Planning, and Zoning Ordinances.

One addition to the Code Enforcement Office is Kris Grimes, current Health Officer. With the addition of Kris, this office has made great strides in resolving the large back log of outstanding building permits dating back to 1991. We are now able to concentrate on current issues.

In the year 2000 the town adopted the Shoreline Protection Act for the Connecticut River area.

There were one hundred-four building permits issued for 2000. Nineteen of the new permits were for newly constructed residences. Thirty-eight permits were renewed from previous years, twenty-five permits were revoked or voided from previous years. One hundred-thirty-four certificates of occupancy were issued with thirty-four of them for new residences.

The following is a breakdown of permits issued:

CHESTERFIELD PUBLIC LIBRARY REPORT - 2000

There was an increase in activity in almost all areas of the library in 2000. 161 new users were added, and the total circulation of materials increased by 600, or 13%; mostly in audio and video cassettes. Usage of the library's computers went up 22%, and overall library visits by 3%. From May to October we provided the residents of Westmoreland with library service while their library underwent renovations and an addition. The circulation totals include Westmoreland users' 195 visits, and 497 circulated materials. It was a privilege to serve them, and in appreciation of our doing so, the Westmoreland Board of Trustees donated copies of their town history and cemetery books to us.

The new Winnebago circulation/catalog system is up and we are in process of loading in our holdings. There are currently 9000 records, mostly the newer materials, available in the automated catalog. No new records will be added to the card file system, so we encourage users to use the electronic catalog when looking up newer materials. On the spot instructions will be provided in its use. Automated checking out and in of materials will not be implemented until most of the holdings are entered. This process will continue through 2001.

We are grateful for the many generous donations of time, books, audio books, videos and money given by library volunteers, town residents, and the Friends of Chesterfield Library. The Granite Bank hosted our book sale again, and we received almost \$400 to use for new materials. All are greatly appreciated; thank you for your contributions that help the library provide better service.

Monday morning children's story time continue to be offered by Joanne MacLean and Kate Stohr. They give generously of their time and creative talents for the enjoyment of our very young readers. The author's contest is an annual event by the Library Friends group as well as several programs of interest throughout the year. An adult book discussion group is now offered; call the library if you are interested in joining the group. We welcome your comments about the library building and the present service, and we encourage you to offer suggestions for future programs and services. Please make use of the suggestion box at the circulation desk in the library.

In addition to print and non-print materials, the library offers 6 Internet connections, a Paperport scanner, a telephone for local calls, a fax machine, and a copier for public use.

We extend an invitation to all residents, new to town or long established, who have not yet visited the library, to come in and register for free library service.

WELFARE DIRECTOR'S REPORT
2000

In keeping with the times the Town now has a computer program called "Wired Wizard" to assist us in getting all the information we need and will help us with sending our clients to the right agencies. This also has the Healthy Kids application for health insurance for children of families without insurance. I have not had the opportunity to use this yet but am looking forward to the chance to see how this works.

The people in the community who donate their time to Joan's Pantry are wonderful, as are all the people I come in contact with in the various agencies, thank you all.

As laws and guidelines continue to change I will try to keep the Town up to date on everything and suggest any needed changes to the selectmen. As in the past two years I will continue to attend meetings to keep me up with these changes.

Welfare Director

CHESTERFIELD RETIREES AND SENIORS PROGRAM

REPORT FOR 2000

This luncheon program started many years ago and was held in a private home. Now we are usually at the town hall and serve an average of thirty to forty seniors. The time is 12:30 PM, following the monthly HCS clinic. Town residents age 55 and over are welcome, on the second Wednesday of each month, excepting August, January and February.

We all appreciate the aid given by the Town of Chesterfield so that this social gathering is possible. Our guests do donate a minimum amount to help defray costs. The meals are prepared and served by a volunteer group and is, of course, non-profit.

In April and May the Chesterfield school's excellent music department provided entertainment. We loved this!

Thanks to Fred Rowley, the group swelled to over fifty as we met at Spofford Camp and enjoyed a delicious buffet in the summer dining hall, on Flag Day, June 14th. (We hope we will be invited back in June, 2001!)

There was the usual large turn-out at Ware's Grove for the July barbecue. A very generous Spofford restaurateur provided all of the hotdogs and hamburgers!

In October we again treated the seniors to a trip on the Connecticut on the Belle of Brattleboro, serving box lunches as we enjoyed the autumn scenery.

A complete turkey dinner was served in November. In December we had potroast and lots of goodies and a fun swap of small Christmas gifts.

It is helpful to have reservations whenever possible, by calling Alice Nowill at 363-2734 or Joanne MacLean 363-8348. For more information, call any one of us. Notices are in the post offices and town hall and offices and also on the Seniors Activities page of the Keene Sentinel.

Thank you for your continued support.

Re: Report on Agency for Town Report

For Town Report:

The Gathering Place Adult Day Services provides adults who are isolated, frail, or disabled with a safe and supportive day center where they can meet with peers, participate in enriching activities, receive preventative health care, and remain active in their communities. The Gathering Place serves participants who have diverse needs, from those who suffer from Alzheimer's Disease and other forms of dementia to those who have physical or emotional disabilities. Staffing includes a recreational therapist and other trained activities staff, a nurse, a nursing assistant, and numerous volunteers. The Gathering Place also provides caregivers with respite, support and education. The program is located in a large and sunny space in West Brattleboro and is open on weekdays from 8 am to 5 pm. The center serves Windham County as well as southwestern New Hampshire. Since it opened in 1989, the Gathering Place has served Chesterfield residents and has helped these adults remain living at home and connected to their community for as long as possible.

Prenatal care, hospice services, regularly scheduled wellness clinics and child health clinics are also available to residents. Town funding partially supports these services.

FINANCIAL REPORT

The actual cost of all services provided in 2000 with all funding sources is projected to be \$163,271.00.

The total cost of services provided for a partial fee, or at no charge to residents in 2000 is projected to be \$5,237.40 for home care and \$1,139.00 for Meals-On-Wheels.

For 2001, we request a total appropriation of \$7,552.00; \$6,500.00 to be available for home care and \$1,052.00 for the Meals-On-Wheels program.

Thank you for your consideration.

Report to the Town of Chesterfield

Youth Services has been offering support to Windham County families and youth since 1972. Since that time the agency has dedicated its efforts to providing children, youth and family members needed outside assistance to deal with issues of growing up and raising families. The Youth Services Board of Directors has consistently maintained a philosophy dedicated to youth and overall community health regardless of client's ability to pay.

Youth Services currently works with youth and families throughout Windham County in the areas of alcohol and drug prevention and treatment, youth development, counseling and support, family counseling, parenting education and consultation, mentoring programs and alternatives to the judicial system. We feel that more than ever we continue to respond readily to the unique and changing needs of individuals and communities.

In FY2000, we served over 1,900 youth and family members overall. Services ranged from traditional in-office counseling to street outreach by supervised teen peer counselors. We now have Student Assistance Counselors available to students in all high schools and middle schools in Windham County who provide education, support, intervention and referral regarding issues of alcohol and drug use or abuse and issues related to adolescence. We believe that this readily available resource supports students' capacity to be best able to learn.

Youth Services requests \$140 from the town of Chesterfield to support our continued efforts. Town support makes it possible for Youth Services to continue to be responsive to the needs of individuals and families regardless of their ability to pay. In addition, it allows us the flexibility to respond to community needs when they arise without preliminary, financial barriers. Town support can make a significant difference in the lives of families and youth and this, in turn, can be an enrichment for your community.

TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER REPORT

There are 2,200 Forest Fire Wardens and Deputy Forest Fire Wardens throughout the state. Each town has a Forest Fire Warden and several Deputy Wardens who assist the Forest Rangers with forest fire suppression, prevention, and law enforcement. The number of fires reported during the 2000 fire season was below average as referenced in the statistics below. Despite this, our network of fire towers and detection patrols were still quite busy with the fire towers being first to report over 135 fires. These fires were quickly and accurately reported to the local fire department for their prompt and effective suppression efforts. Wildland fires occurring in areas where homes are situated in the woodlands are a serious concern for both landowners and firefighters. Homeowners can help protect their homes by maintaining adequate green space around them and making sure that houses are properly identified with street numbers. Please contact the Forest Protection Bureau to request a brochure to assist you in assessing fire safety around your home and woodlands.

To aid your Forest Fire Warden, Fire Department and State Forest Ranger, contact your local Warden or Fire Department to find out if a permit is required before doing ALL outside burning. Fire permits are required for any open burning unless the ground is completely covered with snow where the burning will be done. Violations of RSA 227-L:17, the fire permit law and the other burning laws of the State of New Hampshire are misdemeanors punishable by fines of up to \$2,000 and/or a year in jail. Violators are also liable for all fire suppression costs.

There are eleven Forest Rangers who work for the New Hampshire Division of Forests and Lands, Forest Protection Bureau. Forest Rangers have investigated numerous complaints regarding violations of the timber harvest and forest fire laws, and taken enforcement action to ensure compliance. If you have any questions regarding forest fire or timber harvest laws, please call our office at 271-2217, or for general information visit our website at www.dred.state.nh.us.

The State of New Hampshire operates 15 fire towers, 2 mobile patrols and 3 contract aircraft patrols. This early detection system and reports from citizens aid in the quick response from local fire departments. These factors are critical in controlling the size of wildland fires, keeping the loss of property and suppression costs as low as possible. Due to permitting and fire safety concerns, please contact your local fire department BEFORE using portable outdoor fire places and vessels, including those constructed of clay, concrete or wire mesh.

Please contact your local fire department before doing ANY outside burning.

CHESTERFIELD FIRE DEPARTMENT

REPORT 2000

The Chesterfield Fire Department responded to 128 calls during the course of the calendar year 2000, which is exactly the same number as 1999. Ninety-two of the calls were Rescue related, of which 17 were cardiac associated. Six of the cardiac calls were cardiac arrests; one patient was fortunately revived due to the combined expertise of the Spofford Fire and Rescue, Rescue, Inc. and the Chesterfield Police and Fire Departments.

The following eight members celebrated anniversaries in 2000:

John Herrick	20 years
Michael Plante	20 years
Jeffery Chickering	15 years
Louis Perham	15 years
Michael Chamberlin	10 years
Tim Hanley	10 years
Dan Todd	10 years
Hans Dennie	5 years

The Chesterfield Fire and Rescue are pleased to have served their community and wish to extend their thanks to the citizens of the Town of Chesterfield.

SPOFFORD FIRE DISTRICT 2000 FIRE COMMISSIONERS REPORT

A 57% increase in fire and rescue calls is how the Spofford Fire Dept. started the new century. After several years of a slow but steady increase in requests for aid, this year was the one many had predicted - a dramatic increase to a level that is consistent with our growing community. Rescue calls, especially house calls, caused the major increase, although all fire and rescue statistics are higher. Our volunteers put in over 1000 manhours on calls and almost the same amount in training.

A Rescue/Fire Boat has been obtained for use on the lake. This large pontoon boat was used for the first time late last summer and will be an excellent rescue tool for water rescue. A special article is included in this years budget to cover the final costs to obtain this unit and to cover any difference between the purchase price and monies raised thru fire dept fundraising. The \$6000 request is the difference at the time of this writing. Because several more donations are expected, this request will likely be adjusted downward at precinct meeting.

Another special article is included this year to purchase a computer for the use of the commissioners and fire dept. This is the beginning of a new wave of fire service communication in the area. Its expected that within 5 years computers will be in all fire and rescue vehicles, along with updated digital radios.

The operating budget is down 8.4% even with a payroll increase to cover increased operations. The other articles are for various capital reserve funds as noted. Added all together the budget is up 7%.

New energy efficient overhead doors have been installed as planned. All other planned maintenance items have been completed, all equipment is in excellent condition at this time.

All fire dept. members received training in various skills this year. Because the dept. continues to be more and more rescue oriented, heavy emphasis is placed on health and safety items along with heavy rescue extrication training.

As always, the fire dept. welcomes new members to serve in various capacities. All members do not need to be young and strong. Retired, active retirees and other looking for something exciting to do are especially welcome. Please consider volunteering with us.

As always, Thank you for you continued support.

MINUTES FOR THE SPOFFORD FIRE DISTRICT MEETING FOR THE YEAR 2000

Moderator James Milani called the meeting to order at 7:30pm at the Spofford Village Hall on Tuesday, March 21, 2000. There were 17 people in attendance. Dispensing the reading of the warrant, articles were taken up in turn.

ARTICLE 1: To choose a moderator for the ensuing year. *On a motion by Chester Greenwood and second by Stephen Buckley, Michael Bentley was elected.*

ARTICLE 2: To choose a clerk/treasurer for the ensuing year. *On a motion by Chester Greenwood and second by Stephen Buckley, Janet Dunham was duly elected.*

ARTICLE 3: To choose a Commissioner for three years; 2000-2001-2002. *On a motion by Stephen Buckley and second by Kevin Greenwood, Chester Greenwood was elected for another three year term.*

ARTICLE 4: To see if the District will vote to appropriate the sum of \$21,000.00 to be added to the Heavy Equipment Capital Reserve Fund. (Recommended by the Budget Committee) *On a motion by Chester Greenwood and second by Janet Dunham, the article was passed as read.*

ARTICLE 5: To see if the District will vote to appropriate the sum of \$5,500.00 to establish a new Small Equipment Capital Reserve Fund. (Recommended by the Budget Committee). *On a motion by Janet Dunham and second by Stephen Buckley, the article was approved.*

ARTICLE 6: To see if the District will vote to appropriate the sum of \$20,000.00 to establish a new Building Capital Reserve Fund. (Recommended by the Budget Committee) *Motion was made by Stephen Buckley and seconded by Ronald Cuyette to pass the article. Moderator Milani asked for some explanation before the vote. Michael Wiggins explained that the present building will not meet code in the not-too-distant future and the Budget Committee recommended that the fund be started at this time to offset the expense of construction in the future. After the brief explanation, the article passed.*

ARTICLE 7: To see if the District will vote to accept the budget or act thereon; *On a motion by Stephen Buckley and a second by Kevin Greenwood, the article passed without further discussion.*

ARTICLE 8: To see if the District will authorize the Commissioners to borrow money in anticipation of taxes to meet current expenses. *On a motion by Ronald Guyette and second by Stephen Buckley, the article passed.*

ARTICLE 9: To see if the District will authorize the Commissioners to accept any gifts or donations as they may see fit. *On a motion by Stephen Buckley and second by Thomas Davoli, the article was approved.*

ARTICLE 10: To see if the District will vote to authorize the Commissioners to dispense with any goods as they may see fit. *Motion was made by Thomas Davoli and seconded by Ronald Guyette to pass the article. Kevin Greenwood asked for an explanation of "goods" It was explained that the article gives the Commissioners the approval to dispose of outdated gear and apparatus. Michael Bentley inquired as to the status of housing the Waterous. At present it is in his building, but may have to be moved in the future. He is willing to donate the small shed that came from the cemetery if someone has land available to put it on. The article passed after the discussion.*

ARTICLE 11: To transact any other business that may legally come before said meeting. *Chester Greenwood indicated that Stephen Buckley had a presentation to make. Stephen asked that Catherine Schlichting stand to be recognized for her 16 years of service to the District. She was presented with a plaque and gift certificate. Stephen also recognized Ronald Guyette's 60 years on the Spofford Fire Department and Benny Schlichting and Michael Wiggin's 30 years. On a motion by Ronald Guyette and second by Stephen Buckley, the meeting was adjourned at 7:45pm.*

Respectfully submitted,

Catherine H. Schlichting

INDEPENDENT AUDITOR'S REPORT

To the Members of the School Board
Chesterfield School District
Keene, New Hampshire

We have audited the accompanying general purpose financial statements of the Chesterfield School District as of and for the year ended June 30, 2000 as listed in the table of contents. These general purpose financial statements are the responsibility of the School District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The general purpose financial statements referred to above do not include the general fixed assets account group which should be included in order to conform with generally accepted accounting principles. As is the case with most municipal entities in the State of New Hampshire, the Chesterfield School District has not maintained historical cost records of its fixed assets. The amount that should be recorded in the general fixed assets account group is not known.

In our opinion, except for the effect on the financial statements of the omission described in the preceding paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Chesterfield School District as of June 30, 2000, and the results of its operations and the cash flows of its nonexpendable trust funds for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements of the Chesterfield School District taken as a whole. The combining and individual fund financial statements listed as schedules in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Chesterfield School District. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

**CHESTERFIELD SCHOOL DISTRICT MEETING
MARCH 11, 2000**

School District Moderator Gary Winn opened the polls at 10:00 AM for voting. The following persons were appointed as ballot clerks and took the oath of office from Toni Mann, School District Clerk: Marcia Esche, Betsy Yacubian, Linda Lord, Barbara Girs, Audrey Ericson, Robert Yacubian, Judy Boyer, Priscilla Whitford, Craig Hood, Paula Dustin, and Lynne Borofsky.

At 7:13 PM, the Moderator called the meeting to order for the purpose of acting on the articles in the warrant.

The Moderator, Gary Winn, introduced himself and welcome everyone on this stormy evening. The Moderator also introduced the Chesterfield School Board: Susan Sciuto, Chairman; Cathryn Harvey; Fred Rowley and Alfred Chesley; District Clerk Antonina Mann; Principal of Chesterfield School Martin Mahoney; Assistant Principal of Chesterfield School Robert Edson; the Officials of SAU 29: Superintendent Phil McCormack, Business Administrator John Harper, Assistant Superintendent of Towns Tom Kane.

The Moderator announced that the polls would be open for the duration of the meeting and explained briefly the Parliamentary procedures being used.

In light of the weather, the Moderator made it clear that this meeting was now in session, that this meeting may be recessed to another day if this body felt there was insufficient representation present to make a decision. Mary Lauterbach made a motion to recess the meeting until Thursday, March 16th at 7:00 PM. Cheryl Child seconded. Discussion followed. The motion was defeated by a show of hands. Opposed carried the vote, approximately 2 to 1 count.

ARTICLE 1: Cathryn Harvey moved that the District receive the reports of agents, auditors, committees and officers chosen as printed in the annual report. Seconded by Fred Rowley. Phil Hueber reported on the Endowment Fund Committee. Article 1 passed by a voice vote.

ARTICLE 2: Robert Borofsky moved that the District raise and appropriate the sum of \$5,756,951.00 for the support of schools, for salaries for school district officials and agents, and for the statutory obligations of the District. Seconded by Joan O'Neil. A motion was made by Karen Cangialosi that the District amend the motion by increasing the total budget for Chesterfield School by \$48,583.00 in order to reinstate the sixth grade teaching position. Seconded by Linda Heimerdinger. Questions and discussion followed. Phil Hueber made the motion to move the question. Virginia McManus, seconded. The motion to move the question was passed in the affirmative by voice vote. A paper ballot was used to vote on the amendment. 90 registered voters. Yes -60; No -30. The Moderator declared the amendment passed by paper ballot.

Article 2 now reads that the District raise and appropriate the sum of \$5,805,534.00 for the support of schools, for salaries for school district officials and agents, and for the statutory obligations of the District. A paper ballot was used to vote on Article 2. Yes -70; No -18. The Moderator declared that Article 2 passed by paper ballot.

Susan Sciuto moved to restrict reconsideration on Article 2. Seconded by Phil Hueber. The Moderator declared the voice vote to be in the affirmative.

ARTICLE 3: Fred Rowley moved that the District authorize and empower the School Board to borrow up to \$112,796.00 representing the State of New Hampshire share of special education costs for the 2000-2001 school year pursuant to R.S.A. 198:20-D upon such terms and conditions as the School Board determines in the best interests of the District; said sum together with the costs of borrowing to be repaid by the State of New Hampshire, pursuant to R.S.A. 186:C-18. Seconded by James O'Neil. James O'Neil moved and Martin Mahoney seconded, to do away with paper ballots and to use a voice vote for Article 3. The Moderator declared the motion passed by voice vote. The Moderator declared Article 3 passed by voice vote.

ARTICLE 4: Alfred Chesley moved that the District raise and appropriate the sum of \$25,000.00 to be deposited in the Capital Reserve Fund established by the voters at the March 5, 1994 District Meeting for the purpose of major renovation/reconstruction of the school and related costs. Seconded by Stephen Pfistner. Discussion followed. Virginia McManus moved that a vote on this article should be a voice vote, seconded by Joan O'Neil. The motion was passed in the affirmative by voice vote. The Moderator declared Article 4 passed by voice vote.

James Milani made a motion that this Chesterfield School District Annual meeting direct the School Board and the Superintendent of Schools to submit an invoice and letter of explanation to the President, the four members of our Congressional delegation and the Secretary of Education (with carbon copies to *The Keene Sentinel* and *The Brattleboro Reformer*) for the dollar amount of the unfunded portion of the Federal Government's 40 percent commitment toward the funding of the District's Special Education expenses. Seconded by Jim O'Neil. The motion was passed in the affirmative by voice vote.

Robert DelSesto made a motion to have the Chesterfield School District meeting at 1:00 in the afternoon next year. Anita Barber seconded. Discussion followed. Davis Peach made a motion to move the question, Phil Hueber seconded. The vote was taken by a show of hands. The Moderator declared that the motion was defeated by the show of hands.

Susan Sciuto made a plea for membership for the Technology Committee.

The moderator declared the polls closed at 9:10 PM.

Alfred Chesley moved to adjourn at 9:10 PM, seconded by Casey Schnackenberg. The Moderator declared the voice vote to be in the affirmative.

The official town checklist was used for elections. One hundred and Two (102) ballots were cast at the ballot box. No absentee ballots were cast.

ADMINISTRATIVE REPORT

A coordinated effort has been put forth by the staff at Chesterfield School, with support from parents and community members, to improve student performance, learning opportunities for students, and school environment. This effort results from the overall assessment of the district and its programs and subsequent action planning by the staff and school board.

Each year the school board, representatives from the staff, and SAU 29 administrators work to develop a plan of action that will address identified needs related to school improvement. An adopted goal that has been given priority status this year relates to student performance, especially in the area of language arts (writing). A school-wide effort has focused on the review and implementation of assessment practices and a common set of standards (kindergarten through grade 8) that will ultimately lead to improved student writing skills. Much of this work has been accomplished over the summer and during some of the extra teacher work days, as well as during after school committee meetings. Although too early to see a marked change in test scores, the increased emphasis placed on this issue has impacted this component of the curriculum.

Although research indicates that teacher observation is one of the best measures of student progress, a great deal of time and energy is also devoted to the analysis of student performance on the NHEIAP (state mandated testing program), as well as the results of the California Achievement Test (CAT). This analysis, in conjunction with what teachers observe in the classroom, is used to facilitate decisions about curriculum. Review of the NHEIAP shows 74 percent of Chesterfield's third grade students performing at the Basic, Proficient or Advanced level in English language arts, and 81 percent in mathematics, the only other area tested at the third grade. At the sixth grade level, 78 percent of Chesterfield's students scored at the Basic level or better in English language arts, 58 percent in mathematics, 49 percent in science, and 62 percent in social studies. With respect to the writing score on the language arts test, the earned average score (7.1 out of a possible 12) is well above the state average score.

Student performance, as measured by test scores (total battery) earned on the CAT at the fourth, fifth and seventh grade levels, shows Chesterfield students attaining above the national average. A more in-depth analysis shows fourth grade students scoring relatively high in language expression, study skills, mathematics (concepts and application) and social studies. Math computation is an area that needs improvement. Relative strengths for fifth graders include reading, language expression, and social studies. These students' scores also show math computation as an area that warrants attention. At the seventh grade level, reading comprehension, science and social studies are areas of relative strength. Spelling is an area that needs improvement.

At the secondary level, Chesterfield students at Keene High School continue to perform well. Review of grade point averages (GPA) shows Chesterfield students performing at a "B-" level in all the core subject areas (English, social studies, science, world language) except math in which the GPA for last year was a "C+". Not only are the students performing well, many are also taking higher level courses. It is interesting to note that Chesterfield had representation in all the advanced placement (AP) classes except world language. There were one or more students enrolled in the following AP classes: English, calculus, biology, physics, environmental science, European history, U.S. history, and psychology. As in past years, Chesterfield students continue to be quite active in co-curricular -- athletic and non-athletic -- activities at Keene High School.

Community involvement and support remains high. Involvement on committees related to facility needs, safety/security, and the playground has provided a vehicle through which issues can be identified and addressed in a very positive and constructive manner. Special recognition goes to the work of the Playground Committee and all those who worked on the World War II Commemorative Project. The day-to-day involvement of parents and community members in the classroom, on field trips and in other school related activities is tremendously valuable to the students and teachers and is greatly appreciated.

This level of involvement and support is enhanced when there is also a solid understanding of the issues with which the staff and school board are dealing. Knowledge of these issues is increased through visits to the school, service on committees and attendance at school board meetings. If you can make the time to do one of these things, please do. I believe you will find it well worth the time. Also, please plan to attend the annual school district meeting on Saturday, March 10, at 7:00 p.m.

Phillip G. McCormack, Ed.D.
Superintendent of Schools

PRINCIPAL'S REPORT

ELEMENTARY ENROLLMENT

Although the district's K-8 student population has decreased (-13) from that which I reported to you last year, the change did not reflect the significant decline that had been originally anticipated.

<u>Enrollments/Placements - October 1, 2000</u>			
Kindergarten	32	Grade 5	47
Grade 1	43	Grade 6	53
Grade 2	43	Grade 7	64
Grade 3	45	Grade 8	58
Grade 4	57	TOTAL	442

As a result, we have begun to reconsider the manner in which we project future enrollments, taking into consideration the transition of students and families, both in and out of the district, and other relevant statistical data, e.g., live birth to kindergarten data, dwelling units in the community, population growth in the community and K-8 student population growth.

In consideration of all these factors, we are projecting a total, K-8 enrollment of 446 students for the 2001-2002 school year, with enrollments for subsequent years (2003-2004) also showing a slight increase.

CLASSROOM CONFIGURATIONS

In response to related actions at last year's district meeting and recommendations from teachers and administration, the school board voted unanimously at its June, 2000 meeting to discontinue the school's multi age program, which was initiated in 1991.

In making our presentation to the school board and parents, the teachers and I reflected on the manner in which the program had changed over the past decade from its original design. Despite these changes, the teachers and I remain very committed to the inherent philosophy and many of the instructional practices advocated by 'multi age grouping.' The latter remains an integral part of our current program at all grade levels. I want to express my sincere appreciation to Mrs. Beardsley, Mrs. Gardner, Mrs. LeDuc, Mrs. Morrisette, Mr. Potter, Mrs. Powell and Mrs. Whitford for their tireless efforts, personal initiative and commitment to the program over the years.

STAFFING

Professional

The only change to our teaching staff this past year involved our art program. Mr. Doug Frank left our employ and Mrs. Melissa Donovan was elected to fill this part-time position. Melissa is certainly no stranger to us as she lives in the community, attended Chesterfield and Keene High School, and currently serves as the town's Director of Parks and Recreation. Prior to pursuing and receiving her Bachelor's degree in Art from Keene State College (1999), she worked in the private sector in related areas, e.g. photography, art and printing. She is currently enrolled in a certification program at Franklin Pierce College. We welcome Melissa to our staff and hope that it will bring some much needed stability to this position.

We are extremely fortunate not to have experienced any turnover in our full-time professional faculty this past year and I want to express my appreciation for the support that was generated by parents at last year's district meeting that resulted in the reinstatement of a full-time teaching position. In addition, the sentiments expressed at the meeting gave direction to both the school board and administration with regard to acceptable teacher/pupil ratios.

The stability of our professional faculty has contributed significantly to the success of our school over the past decade, the consistency and continuity of programming and instruction, and the outstanding reputation it has earned throughout the region. The veteran make-up of our faculty was an important consideration in this year's negotiations with the Chesterfield Education Association for the successor contract and the agreement that was ultimately ratified by the CEA and the school board. I ask that you take that into consideration as you vote to consider the conditions of the agreement at this year's meeting.

Support Staff

Please join me in welcoming the following individuals to our staff:

<u>Staff Member</u>	<u>Position/Assignment</u>	<u>Replacing</u>
Mrs. Jenna Aube	Inclusion Aide - Kdg.	Mrs. Lorraine Kornfield
Ms. Amy Augusta	Inclusion Aide - Gr. 4	Mrs. Kathy Brown
Mrs. Elizabeth Benjamin	Inclusion Aide - Gr. 6	Mr. Chad Boswell
Mrs. Marie Goranson	Title I Aide (part-time)	Mrs. Stephanie Loreda
Mrs. Deborah Howe	Inclusion Tchr. Asst.-Kdg.	Contracted Service
Ms. Bethanie Mills	Inclusion Aide - Gr. 1	Mrs. Brenda Shelley
Mrs. Laura Patnode	Inclusion Aide - Gr. 1	Mrs. Lee Shepard
Mrs. Noreen Rushlow	Inclusion Tchr. Asst. - Gr. 1	Mrs. Marie Goranson
Mrs. Teresa Winter	Inclusion Aide - Gr. 7	Ms. Julie Moulton

Since the start of the current school year, I have reluctantly accepted letters of resignation from two key individuals, Mrs. Krista Hazzard and Mrs. Lorraine Kornfield. Over the years, Mrs. Hazzard has worked as a tutor, Inclusion aide, Inclusion teacher assistant and, most recently, as one of the school's special education aides. In every situation, she has performed superbly and, despite leaving our employ, she has graciously and willingly agreed to continue to serve as the coordinator for the school's DI program through the regional competition in March. The teachers, students and I are deeply appreciative of all that Krista has done over the years.

Although each of the individuals who has left our employ has had a positive impact on the instructional and emotional environment of the school, the loss of Rainy Kornfield creates the biggest void. For well over a decade, Rainy has devoted herself to the development of our district's kindergarten program. Her close working relationship with Mrs. Marilyn Goulas and Mrs. Karen Rydant has contributed greatly to its success. This became even more apparent as the position was 'shared' some years ago between Marilyn and Karen, and Rainy became the one constant. A child's first experience in public school is an important moment in time and Rainy's patient, loving, nurturing and understanding approach was well suited to the task. She has consistently demonstrated a level of care, concern and personal attention for all the children, which was evident each day as she greeted them when they arrived and as she assisted the teachers with awards during the end-of-year ceremonies. Rainy is one of the kindest, gentlest and most loving individuals I have ever known and the children of this district have grown and matured having been blessed with her attention and affection. I know that I speak for all of you in offering our thanks and gratitude to her for all that she has done and wishing her well.

CURRICULUM AND INSTRUCTION

Summer Curriculum Work/Special Projects

The following represents a collated listing of the many important projects and initiatives that the district's teaching/professional staff worked on over the summer months:

- major changes to grading and reporting practices currently used in grades 7-8;
- the development of special/integrated theme related projects and activities;
- scheduling;

- the status of enrichment programs and the conduct of related training and activities;
- the use of grant funds to purchase and install adventure based, low elements equipment in the school's multipurpose room to support the school's physical education and health curriculums;
- the design and construction of a cross-country running course to support the addition of this sport to our school's interscholastic athletic program;
- curriculum programming and development that will support the proposal to reconfigure classes in grades 1-6;
- the review and collating of data/information related to student discipline;
- efforts to support the national initiative to recognize the sacrifices of our country's and community's World War II veterans and the construction of a national memorial in Washington, D.C.;
- the implementation of the SAU/district's new K-12 technology curriculum and changes that have been made to the K-12 language arts curriculum continuum;
- and the status of our school's social skills curriculum and the conduct of Rainbow Assemblies, just to name a few.

Efforts that are put forth by teachers in advance of every school year represent a very formidable listing of activities and speaks highly of their level of commitment, devotion and professionalism.

Enrichment

Considerable discussion has taken place at all levels over the past few years with regard to the philosophy and status of what has been termed 'gifted/talented and enrichment education.' Meeting to determine a statement of philosophy and direction for the district was an important agenda item for the school board this past year and, as a result of these discussions, they agreed to the following:

1. School programs are to be considered 'enrichment programs' as opposed to 'gifted and talented programs' and will be referred to as such.
2. The development and conduct of programs and initiatives should primarily involve students grades K-6, as there are already many enrichment activities in the middle school and kindergarten is a half-day program.
3. The Board will annually budget monies for enrichment activities, which will be made available to faculty members by application and can be used for teacher training (enrichment), as well as funding specific enrichment activities for/with students.

Thus, the efforts of the school's PACE (Programs for Academic and Cultural Enrichment) Committee will now be focused on developing proposals, programs and initiatives appropriate to this established policy. Funding to support the development of such programs is included in the proposed budget.

Grading and Reporting

The training of the middle level teachers (grades 7-8) in the use of the eGrade reporting system and its application this year represents the most significant change that has taken place to our school's grading and reporting practices. The use of this new format provides a greater level of consistency and standardization among the school's middle school teachers, provides more detailed and accurate information for both students and parents, and ensures a better accountability on the part of everyone. I want to commend the middle school staff for their willingness to embrace this new initiative and I especially want to recognize Mr. Earl Horn for his tireless efforts, unending patience, professionalism and commitment in making this a reality.

BUILDING MAINTENANCE

The most significant change that has occurred with regard to building maintenance has involved the creation of a Facilities Study Committee and the Playground Project.

Facilities Study Committee

The school board formed this committee, which is chaired by Mr. Fred Rowley, in an effort to better plan and project long-term needs and costs associated with both the maintenance and construction of the elementary school. The committee has met to consider information included in district goals and related action plans, the recently completed School Building Security Needs Assessment (Nason Security Consultants, East Andover NH, Feb. 2000) and the history of building needs and program development. As a result, the committee has submitted to the school board a five-year plan that addresses those needs and a plan to study selected projects in advance of each budget cycle. Currently included in this year's proposed budget is funding to support renovations to the main entrance and the playground, as well as the installation of a barrier between the parking that adjoins the playground area.

Playground Project

The district's Playground Committee was originally formed last year by teachers and parents in an effort to evaluate the current playground, which was constructed by volunteers in 1988, and determine the best approach to its repair and/or replacement. Since that time, the committee has completed a comprehensive study, safety inspection and audit, devoted considerable time and effort into related research, interviewed companies and conducted on-sites in other communities in the tri-state area. The current proposal calls for the complete replacement of the current structure and the installation of new equipment that best meets the needs of our community's children and adequately addresses issues related to both liability, safety and long-term maintenance needs. Although the cost of the project totals \$50K, the committee has worked extremely hard through its many initiatives and has, thus far, raised half of the monies in grants, pledges and donations. The response from the community has been extremely positive and supportive and we hope that this is reflected in the approval of the related warrant article at the district meeting.

TRANSPORTATION

The district's endorsement of a request to fund an additional bus for the current school year contributed greatly to our ability to satisfactorily address the following issues:

- the denial of waivers for selected routes by the NH Department of Education;
- changes that have taken place with regard to student enrollments in all grades, which impact on both regular and special education transportation;
- shifts in student populations from the elementary to high school;
- avoiding the need to transfer/feed students in grades K-4 to larger buses;
- maintaining compliance with current state law;
- ensuring that students arrive and depart elementary/high school in a more timely manner;
- easing some of the overcrowding on selected routes;
- supporting the school's co-curricular programs;
- and taking into consideration unique child health care situations.

Considerable time and effort was devoted over the summer months to reconfiguring the routes and stops for students requiring transportation services in grades K-12. Special recognition goes to Mrs. Paula Leslie, Laidlaw Education Services, for her tireless efforts, constant vigilance and attention to detail.

SPECIAL PROGRAMS

National World War II Memorial Project

One of the important projects that all classes worked on this past trimester involved support for the construction of a national memorial in Washington, DC honoring those who served our country and sacrificed during World War II.

The overall objective of the project was twofold:

1. To raise money in support of the project.
2. To encourage students to become more 'connected' with family who served so ably and valiantly during this critical time in our history.

The overall response from the students, faculty and community to this project was overwhelming. This was not only reflected in the \$1,000 that was raised but, more importantly, in the personal information that was collected and processed. This book, in addition to the framed copies of news articles, memorabilia and letters of recognition we received, the 5-volume commemorative book set donated by the United States Postal Service to the memorial's education program and a print of the memorial itself will be on display for both school district and town meetings. I encourage you to view and read them. The book itself will be formally presented to the historical society and remain on permanent display at the town library.

Forestwatch

This past fall, the students in Ms. Larson's seventh grade classes participated for the first time in the Forestwatch Program, which is an ongoing research project from the University of New Hampshire that studies the effects of ozone on white pines. Activities involved having the students measure out a 30-foot square plot of land and tag five (5) white pines for yearly assessment, which also involved evaluating the ground cover and canopy, and measuring the height and girth of each tree. Samples were then sent to UNH for spectrophotometry. The students themselves took duplicate needle samples and conducted observations and tests to determine cell structure, water/chlorophyll content and needle length. Microscopes were used to observe any visual damage. The data was then sent to UNH where it was compiled with that received from other schools. The results will be published and distributed back to the respective schools. Having students work on *"a real live program - with real live scientists"* and the opportunity to be involved with new scientific technology was exciting. The Internet also proved to be a useful tool to access topographic maps of the respective plots and hourly updates of ozone levels throughout the United States.

Cross-Country Running

Cross-country running proved to be a welcome addition to our school's co-curricular program. Not only did it involve the largest number of students (38), it was expanded to include students in the sixth grade and did not necessitate consideration for 'cuts.' Mr. Edson, our school's assistant principal, athletic director and himself a former Division II National Champion, worked closely with our school's first coach, Mr. Dave Comoli, in laying out the course and scheduling the meets. The consensus from the students I talked to and observations from the meets I was able to attend reflected great success and established an excellent foundation for the future.

2000 PARENT-COMMUNITY SURVEY

Every other year since 1992, the school has conducted a survey that is designed to gather constructive feedback with regard to the overall effectiveness of our school in relation to both educational services and special programs. We have found this information to be extremely helpful in measuring both our successes and our needs, as well as in planning for the future. As I took the time to reflect back on the results of the survey that was conducted in 1998 and the manner in which the district has responded since that time, I couldn't help but be impressed by achievements that effected curriculum development, enrichment education, applications of instructional technology, transportation, grading and reporting, and the current plan to renovate our playground. I am in the

and reporting, and the current plan to renovate our playground. I am in the process of collating the data and feedback that was generated by this year's survey and hope to have copies of the report available for your review and consideration at district meeting.

CONSOLIDATED GRANTS

Title VI - Innovative Education Program Strategies

This year's application, approved by the NH Department of Education, authorized the expenditure of \$6,255 and, as is stated in the proposal, provides for the following:

"This proposal will allow for the purchase and installation of equipment that will permit the addition of an indoor, low elements adventure course and corresponding curriculum objectives, which will serve to enhance our existing health and physical education curriculums and developmentally support the conduct of existing/related programs. As we have seen the benefit of similar, related initiatives over the years in selected programs involving the school's middle school population, this proposal serves to expand and enrich those opportunities to the extent that it will have a positive effect all students in the school's K-8 population."

The equipment has since been installed and is being effectively incorporated into the design of both health and physical education classes at all levels. Special thanks to Mrs. Laurine Parker and Ms. Jean Condon who assisted me greatly with this proposal and whose programs are most directly effected.

Title VI-C Class Size Reduction

Last year's funds were used to hire a certified teacher who was employed full-time, March-June, 2000, in support of the elementary school's third and fourth grade classrooms (3). Although the teacher's role and responsibilities differed somewhat in response to the varied instructional settings, of which one involved multi age grouping, her overall efforts were devoted to small group instruction in the subject areas of math, spelling, reading and written language, consistent with the design of the respective curriculum continuums and the individual needs of students. In addition, the teacher also worked on selected 'enrichment activities.' A similar proposal using this year's allocation is currently under consideration for grades 1-2.

STOW MILLS EDUCATION GRANT

The fund currently provides a total, maximum allocation of \$1,000 for selected projects. The following grants were approved for this year:

Gymnastics

This grant allowed us to purchase of a 'spotting block' and special 'aerobic mat.' The purchase of this equipment will serve to greatly enhance the safety and overall effectiveness of our school's gymnastics program and the development, implementation and conduct of related activities.

Ice Harvesting at Stonewall Farms

This program involves students in grades 3-4 and will be conducted early next month. The program is designed specifically to support the social studies curriculum at that level, as it articulates with the study of New Hampshire history. This activity will also serve as a precursor to related lessons and activities that the students will continue to explore with the aide of representatives from the Chesterfield Historical Society.

STUDENT RECOGNITION

Consistent with past practice, I would like to take this opportunity to formally recognize some select groups and individuals whose achievements and accomplishments over the past school year have been especially noteworthy.

.... and to all of the students in our school who, on a daily basis, in their own special and personal way, make a positive and lasting contribution to the excellent image of our school - thank you!

In closing, I always find it truly rewarding to reflect back on the things that we have accomplished in any given school year in this district, all of which could not occur without quality students, a professional and dedicated staff, a caring and involved community and committed, hard working school board. I am confident that, with your continued support, the future of this school district in this new millennium remains bright and will be blessed with even greater achievements.

SCHOOL HEALTH SERVICES REPORT

1999-2000 SCHOOL YEAR

Annual Health Services Performed

- Physical appraisals conducted by school physician and nurse practitioner for fourth and seventh graders -- interscholastic sports and state-required exams to assess for healthy growth
- Height and weight -- all students
- Student visits to the health office -- first aid, illness, medications, in need of community resources, patient education
- Vision screening -- grades 1, 3, 5 and 7; new student and special education referrals
- Hearing screening -- Pure Tone (Acuity) and Impedance (Tympanic Membrane): Grades 1, 3, 5 and 7; new student and special education referrals
- Daily medications -- average 16 per day for chronic conditions; plus short-term prescription and nonprescription medications -- average 5 per day
- Scoliosis screening -- grades 5 through 8
- Tuberculin testing -- staff, as needed per school health policy
- Accident reports requiring medical referral
- Referrals for community resources to assist students and families: Lions Club, vision, nutritional, counseling, Medicaid/health insurance, Christmas gifts, winter clothing, medical
- Participation in special education (IEP) meetings as needed for medically fragile students
- Participation in the Cheshire Smiles dental health program for kindergarten through grade 3

The school nurse continues to serve as the chairperson for the school's own Safety Committee. With the help of town residents Fred Rowley, Earl Nelson, and Bart Bevis, we continue to assess and promote a safe school environment. To increase confidentiality of student health records per National Association of School Nursing Standards, a new software program as a daily log for individual student visits was initiated. Also, as chairman of the original staff Playground Committee, a safety audit of the playground was recommended and was done. A parent committee continues to actively pursue the need for a new, safer playground, as indicated by today's playground safety standards.

SCHOOL LUNCH REPORT

We returned to school this year with the same work crew. This is a blessing as it makes everything run smoothly when people know what is expected of them.

We continue to feed an average of 200 children and adults a day. This year, we are fortunate that we have picked up another sub. Carol Pfistner has been our stand-by in the past and now Anna Copeland has been added to our list.

The government continues to give us many cases of good food. They are constantly looking for better ways to use surplus foods. This year, chicken tenders and French toast are two of their new products. Both of these are very popular with the children.

We still welcome visits to the kitchen and encourage you to have lunch with your child if you have the chance.
